Instructions:

Print out the pdf, be careful to maintain the order of the sheets as they come out of the printer.

Lay out the single sheets next to each other on an even surface in order to create the large image.

Page 1 is the first image on the top left. The order of the pages follows the grid, from left to right and from top to bottom.

Fix the sheets to each other, for example by attaching masking tape on the back.

When finished, cut out the shape of the head.

Put up the XXXL poster on the wall!
